

# *Bethany's OPUS*

*The thing that is really hard, and really amazing, is giving up on being perfect and beginning the work of becoming yourself.*

*~ Anna Quindlen*

# What is an *OPUS*?

- **O**verarching Vision  
~ Your *BIG* dream!
- **P**urpose  
~ The defining statement of your work.
- **U**nifying Strategies  
~ Big buckets of productive actions to achieve your overarching vision.
- **S**core Card for Significance  
~ How you hit your target. Baby steps to your big dreams.

“A master in the art of living draws no sharp distinction between his work and his play; his labor and his leisure; his mind and his body; his education and his recreation. He hardly knows which is which. He simply pursues his vision of excellence through whatever he is doing, and leaves others to determine whether he is working or playing. To himself, he always appears to be doing both.”

~ L.P. Jacks

# Overarching Vision

---

Imagine a tribe of **transformational leaders** who are passionate, pro-active, self-aware mentors who cultivate and multiply a culture of **empowerment** and **win-win**. These leaders focus on relationship building and influence to achieve desired ends that are in alignment with their core values. **Character, integrity and faith** are the cornerstones from which they derive their purpose. Their passion is to continuously add value to others and by doing so **continually grow** and refine their leadership capabilities.

Imagine a cause built around creating, nurturing and **multiplying transformational leaders** through development, empowerment and contribution.

Imagine a safe and refreshing space that allows transformational leaders to marinate new ideas, grow themselves and support one another. This space allows them to be refreshed and renewed so that they are able to **give themselves away** in the development and multiplication of the **next generation** of transformational leaders.
