

## MY OPUS

### BARBARA M. LITTLES

#### OVERARCHING VISION:

**Imagine a tribe** passionately living its full potential in **alignment** with its **manifested purpose**. A tribe willing to **embrace** the **uniqueness** of a **liberated** life without **fear**. A tribe that has a **global mindset**, is **innovative, creative, bold** and **committed** to the cause.

**Imagine a cause** focused on bridging life's gaps in careers, relationships and finances. A cause where people move from being **stagnant** in "**success**" to **significant** in **purpose** resulting in **transformation** from the inside out.

**Imagine a space** where people meet at a **point of truth**, where they become fully aware of the **possibilities of their existence**; a place where **grace abounds, where fear is obliterated by faith** and where **significance bridges the gap** between who they are and who they were created to be. A space where in the **fullness of time** people move in **manifested purpose**.

#### PURPOSE: Bridging the Gap Between Potential and Manifested Purpose

#### UNIFYING STRATEGIES

(1) **Personal Growth** - because people do what people see and people become not what you say but who you are, I must become a living epistle of my message

(2) **Life Changing Experiences** - because people must have an ah ha moment immersed in transformational structure, I must create content to provide an environment for those experiences

(3) **Collaborative Partnerships** - because my impact is global, I build teams through strategic alliances to make the dream work

(4) **Influencing Nations** - because we live in a global society in which every nation is interdependent on the resources of the other, I must expand my scope of influence to the nations to effect global change

## SCORECARD FOR SIGNIFICANCE

### Personal Growth

- **Physical** - because my body is the living temple through which clarity of thought, and every source of energy flows, I must be a good steward of my physical health
- **Spiritual** - because the mind of God and his thoughts are greater than mine, I must tap into that source each day through prayer and studying of the Word to receive strategy for the day
- **Relational** - because my husband and I are one and have the privilege of reflecting God's glory in the earth, I must serve him and our relationship each day and the fruit thereof in our children Jessica and Elena
- **Emotional** - because of the power of emotions, I must guard my ear gates and eye gates and seek the presence of people and environments that promote my emotional well being
- **Intellectual** - because I live in a place of gratitude, I must present God with a ROI by increasing my intellectual capacity each day by learning something new that will assist me in helping others bridge their gap between potential and manifested purpose.

### (2) Life Changing Experiences

- **Retreats(2 days)** – because people need to unplug from their lives to focus on their vision, I must create an atmosphere in a place with content that energizes, invigorates, motivates, and captivates their hearts passion
- **Seminars** – because it is important for people to remain life learners in their journey to purpose, I must present information and knowledge from which they can be inspired and motivated to produce.
- **Coaching** – because self- discovery is a critical and effective means of finding and embracing the answers within, I must become a masterful coach to the whole person in assisting in the discovery of one's purpose
- **Video content-** because people are visual and multi-dimensional in their learning process, I must create content that provides for visual learning and discovery
- **Writing** – because my desire is to be able to assist a growing tribe on a global basis, I must write blogs, newsletters, and books

### (3) Collaborative Partnerships

- **John Maxwell Team** – because<sup>2</sup> I need to connect with people who

have gone further, faster, I will continue to build this partnership for the purpose of shared collaboration, access, information, and learning.

- **Deeper Path Team** – because I need to connect with people who are like-minded but with different thoughts, who share the same values and have diversity of gifts, I will build this partnership for the opportunity to collectively serve a unit greater than myself.
- **Advisory Board** – because wisdom lies in those who have gone before me and in the multitude of numbers there is safety, I will maintain an advisory board of entrepreneurs, leaders, business persons from various industries to advise me in my business.
- **Manifested Purpose Team** – because the demand for the manifested purpose message and journey will be greater than what I can physically meet, I must produce a team of people who can deliver the message.

#### (4) **Influencing Nations**

- **Teams** – because there is strength in numbers and the whole is greater than the sum of its parts, I need to build teams to train, develop, equip, and deploy leaders in education, government, medicine, political and justice systems in all parts of the world.
- **Trips** – because it is important to develop a global physical presence, I must travel internationally and develop alliances in delivery of my message
- **Tools** – because I believe the demand for the message will be greater than my ability to always physically be present, I will produce video products, DVD products, written documents to disseminate the lessons of the journey to manifested purpose.
