# Disentangling Genius, Getting the Real "You" from the inside OUT!

## **I have a dream.....**

I remember a childhood nightmare and I have the interpretation! I am in a vast white expanse. A blank screen is suddenly invaded by a black jangling angry line that scribbles itself furiously across the space. It jumps at me and recedes again, thickens and squeezes out all white spaces and dances threateningly until all is blacked out. It recedes and advances repeatedly until I wake, exhausted by the threat.

I remember sitting on the rough hearth rug of the coal-fired dining room of my grandparents' northern England terrace house. Grandpa patiently untangles and winds the mass of coloured knotted nylon ribbons into individually tight and perfectly formed geometric patterned ostrich egg-shaped balls. He prides himself on the order and beauty of each creation in his architecturally gifted and skilful hands. I watch the rhythmic movements and simultaneous activity of Grandma knitting the combined threads into brightly striped coat-hanger covers.

I know I am called to recover beauty, strike resonance and bring order from entangled dreams and purpose.

I have been liberated from intimidation; all knotty setbacks have been positively worked out. I am supernaturally gifted in untangling confusion, chaos, deception and disorder, hearing from God naturally for myself and others and imparting wisdom with prophetic clarity.

I write and create inspirational media that can disarm the antagonistic, soften the cold heart and kindle a flame of conviction and joy in the discouraged. I skilfully lead my reader who may not even know their heart condition to a place of recognition and insight. Writing compelling and unfolding storylines I help people find knowledge, wisdom and understanding. I facilitate deep calling to deep - creative acts of writing and multi-media that bring glory, honour and expression of a God given artistic authentic purpose.

My insights interpret principles, patterns and precepts. Through description of experience, imagination and metaphor I enable others to recognise and express their own deeply felt yearnings or unexpressed passions. This brings them into spiritual discovery, momentum and growth.

I am part of a team who bring their respective gifting and synergy to a shared ministry/service in such a way that everyone is released from sub optimal performance and into engaged, effective artistry. In particular they are people who implement business

flair and bring to life creative interactive teaching and learning resources. I see a range of products and applications designed to integrate and embed Christian discipleship principles into everyday life, work, education and leisure. This is a brand with infinite and exponential potential for a hungry market at a time of famine for the Word of God. I am poised along with these partners for such a time as this and our products simultaneously deliver personal and global impact as one catalyst in a far reaching transforming cultural revolution of Kingdom life.

I will share these endeavours with a loving soulmate of high calibre character, kindness and perceptivity who I can lean on with confidence and support with generosity

## **CORE Six Pack**

### **These keep me strong and prevent misalignment in my purpose**

#### **1. Worldview – What I believe**

I believe I am created, loved and purposed for an unravelling destiny written by God

I believe that despite a perfect design for my life being imperfectly executed, broken or hopelessly tangled as a result of my sin and others', He is able to forgive, redirect my steps when I seek help and encouragement from Him and restore me through faith and by grace to an even greater outcome.

I believe He is able to do this for anyone who comes to Him humbly in repentance and need.

I believe He is then able to equip us with the power of the Holy Spirit for an overcoming spiritual life on earth that continues after death for eternity

I believe this Kingdom life is the most important discovery and journey anyone can and must make in order to experience life in all its fullness and escape a just punishment.

I believe that life without Him is a shallow and substitute-filled existence. Nothing comes near to the imperative to find Christ and once found in Him, a battle to sabotage our potential is engaged against us by the enemy of our soul.

I believe worship is a powerful tool to refresh hope, vigour and courage and power

I believe He is with me and will never leave me.

#### **2. Identity – Who I am**

I am a daughter of the King, a woman of God, a spiritual being currently in a mortal body

I am weak in my own strength, I am strong in Him

# Disentangling Genius, Getting the Real "You" from the inside OUT!

I love to belong to an effective purposeful team

I love to have the opportunity to influence and shape people and processes

I love ideas and the power of imagination

I love interpreting complexity, abstract and artistic expression

I love colour, texture and light, contrast and form

I love space and quiet to contemplate

## **5. Purpose – Why I live and work**
