"The glory of God is man *fully* alive" ~ St. Irenaeus

I Have a Dream....

I am sitting on the lanai of my home on Maui, watching the sunset, enjoying time with my wife. She is my best friend, and we have the marriage we always dreamed of. We experience Biblical Oneness, an intimacy that results from a lifetime of allowing God to use each other to change us.....

Our adult children and their families are with us. Our relationships have been restored, and we are very close to our children. As our grandkids laugh and run around us, I turn to Monica and say, "All is well"....

We are enjoying the fruits of a life spent adding value to others. Multiple businesses involving coaching, speaking and training have been extremely successful. We travel the world, training marriage mentors in churches, and speaking to thousands at corporate events.

I am a sought after keynote speaker and life coach. I love connecting with audiences, sharing my story - abused foster child, homeless teenager, and alcoholic, now an adult, free of addiction, living with passion, and on purpose. My story resonates with those who feel hopeless – the place of my greatest pain has become the place of my greatest victory. In addition to my story, I share HOPE and HANDLES with those who have lost their way, whether they know it or not.

I am in the best health of my life, having lost over 100 pounds. Sugar and fast food no longer control me, and I am an example to others in that struggle as well. I embrace everything in my life, and am thankful for it ALL. It has made me who I am.

I have embraced the TRUTH that I am deeply loved, and all is well.

Imagine a tribefully alive, being the change in the world they seek. A tribe who embrace their brokenness, facing fears & processing pain daily. A tribe passionate and on purpose, on a healing path, and reveling in creative collaboration.

Imagine a cause...that deserves our **all**, moment by moment, day by day. A cause that connects people authentically with each other and God. A cause that creates healthy communities intellectually, spiritually, physically and emotionally.

Imagine a space....that celebrates individuality. A space that assures we are deeply loved, a safe and healing place. A space that facilitates the truth that “ALL is WELL.”

My Purpose is to re-awaken dreams & rediscover purpose.
