

Power Your Potential

Pam Pippin, SPHR

Inspiring people by creating an environment where they can discover their purpose, ignite their passion, and power their potential.

My Dream

My overarching vision comes from MY DREAM, where it really is my hearts desire to make a SIGNIFICANT IMPACT upon the people that I meet. My dream focuses on the people around me.

Initially, the focus is placed upon MYSELF, where I truly understand myself and the TRUE SOURCE of my power.

Next, my dream encompasses my FAMILY, my husband and my children providing a home that is full of love and grace, and is an environment where my children can be free to be who they are, and KNOW who they are CALLED to be.

Finally, my dream reaches out to my COMMUNITY and all of those in my circle of influence that I become a CATALYST for them to CONNECT with their POWER and their POTENTIAL.

I will do this in an environment that is PURPOSEFULLY, and INTENTIONALLY created where people and companies can dream dreams, have visions, and develop plans to achieve their purposes and goals. This environment will empower people to identify their own barriers, even if THEY are the barriers. This environment will be a catalyst that helps them break free and experience the freedom of powering their potential.
