Tribe, Cause, Space

Tribe:
This forward moving tribe consists of people contending with relational and sexual brokenness, who, up until now, have allowed themselves to be dragged down by their own self-sabotaging choices, and the oppressive messages and from the words and behaviors of others. Tribe members desire and pursue transformation of their current and future relationships, as well as rightful understanding of past relationship experiences. They are determined to pursue safe and healthy relationships with God, themselves, family, friends, and the rest of their lives (career, rest, fitness, social interactions...). Each in this tribe is committed to whatever it takes to live a lifestyle of overcoming fears, frailties, and failures. As they realize and learn to enter into the existence they were created for, they continually expend less and less effort storing and carrying baggage that is full of their regrets and grudges. At the same time, they are motivated to purposefully invest more and more of their energy rightly relating to God, themselves, and others, while leading others to do the same. This empowers their eyes and hearts to be lifted to God so their lives and relationships can be propelled to soar beyond forgiveness into freedom.

Cause:
My cause is to elevate those dealing with relational and sexual brokenness by educating, equipping, and empowering them to journey toward wholeness. Encouragingly, we purpose to strategically educate how to revise draining relationship practices by supplying training for evaluating and recycling energy expended on fears, frailties, and failures. Confidently, we provide efficient and effective tools that are safe and conducive to create, harness, and redirect previously wasted energy. Intentionally, we create expectant atmospheres that permit and propagate the redirection of their entire lives. This enables them to employ focused relational force that drives them forward into rightly relating in every aspect of their lives. We propel people to soar beyond forgiveness into freedom.

Space:
Serving as loving and caring tour guides, we create safe and inviting atmospheres that empower community and nurture wholeness. As fear is dismantled, frustration is dispelled. Imagine it... your posture is forced upright and your body leans back a little in order to create more internal space as yet another purposeful
breath of fresh air slowly, yet fully fills your lungs. Rather than immediately push the breath out of your body, you intentionally experience it and appreciate it as it gives you new awareness of your pulse - your very existence. The refreshing air is crisp and clean here. As you unashamedly relate to God, you are awed at the magnificence in which you were created and in which you are gracefully sustained. You are both thrilled and filled with relief and great joy as you realize how you have been energized as you learn to relate to yourself. Resonation explodes within as you validate and give voice to your longing to be known and connected. Courageously, you revel in constant relational refreshment resulting from your new capacity to experience and enjoy life relationship by relationship. No longer affiliated with isolation and immobilization, you eagerly engage and enjoy God, yourself, and others in new and life giving ways. Joyfully motivated, you propel and soar beyond forgiveness into freedom.

Initiating: I will initiate healthy relationships with others by opening my heart and mind to those I serve in order to study them and learn their relational wants and needs.

This will happen as I welcome and empower them to build community that encourages individuals to assess their own lives and is a safe place for spiritual and personal development.

Inviting: I will invite others seeking relational connection, health, and growth in their lives to join these communities.

Invoking: I will invoke others to invest in their own growth by establishing their personal plan for forward movement and healing, while investing in others on the same journey.

Investing: I will invest honor and dignity in others by recognizing, loving, serving, and respecting them.
Motivate Transformation
By writing, coaching, and speaking, I will motivate relational transformation that empowers organizations, groups, and individuals to employ focused relational force that propels them forward into rightly relating in every aspect of their existence.

Writing: I will consistently and prolifically write motivational content and thought.
• I will write every week
• At designated times each month, and
• During extended sessions throughout the year.

Coaching: I will lead others through various avenues of Spiritual Formation Development and Life Coaching such as the Deeper Path.

Speaking: I will pursue and accept opportunities to speak at various venues in order to spread this transformational message and further develop connections and personal skill.

Motivating: I will use acceptance, authenticity, humor, and challenge to gracefully and joyfully motivate others through everything I do.

Equip Innovation
By producing, teaching, and training innovative content, I will provide effective and efficient resources that are strategically conducive to capture, harness, and recycle previously wasted life experiences and energy.

Producing: I will produce and make available creative books, workbooks, conferences, retreats, and videos, as well as innovative resources for various other settings.

Teaching: I will pursue opportunities to teach others how to incorporate these resources.

Training: I will create business frameworks by which I will train others to learn and utilize these materials in diverse settings.
Assimilate Connection
By connecting with organizations, groups, and individuals driven toward similar relational goals, I will be able to serve by contributing value to the efforts of others, while further growing my personal local to global influence and impact.

Connecting: I will pursue and engage in relationships by partnering up, collaborating across, and mentoring down in order to create a network with growing potential for synergistic connections.

Serving: I will serve God by serving others in every personal and business relationship through both giving and receiving.

Growing: I will continue to increase my conscious contact with God in order to grow in clarity, confidence, competence, and influence so that God’s impact through my life will continue to spread throughout the world.
